 - C. He decided to retire from playing football
 - D. He was inaugurated as the only gifted athlete

Questions 19 – 21 refer to the following procedure.

Electrical conduit fittings form the outer covering for most electrical wiring from one point to the next. They shield the wires from the external environment so as to make the wire last longer and also to keep humans and pets safe from electric shocks or other such vulnerabilities. Electrical conduits are predominantly made of insulating and sturdy material for optimum functionality. Here are the ways to do the simple ones:

1. Choose the right material for installing electrical conduit fittings. The most preferred material is known as EMT (Electrical Metallic Tubing). EMT is very easy to install as you can effortlessly bend it and assemble it as per your needs.
2. Chalk out a wiring plan: Find out the location of the electrical boxes on your wall to trace the route of the conduit. Draw the path from the main power source to the electrical box.
3. Measure the amount of conduit that you would need: Make appropriate marks in pencil wherever you think the bends should be, and measure the total length of the conduit that would be needed to finish the entire electrical conduit fittings. Now cut the length that you just measured with a tool called hacksaw.
4. Make the necessary bends: It is now time to make bends that you had marked on the pipe in the previous step. Owing to the easy flexibility of EMT, this should not be very difficult. Conduit benders come in handy for doing this bending.
5. Attach fitting to the wall: You can use screws and straps with either single or double holes, available at electrical surplus shops, to attach electrical conduit fittings to the wall.
6. Tape the ends and put the wires in place: Use a widely available fish tape and run it through the entire route of the conduit fittings you just installed.

19. Which one is NOT needed to prepare for the activities?

- A. Fish
- B. Chalk
- C. Straps
- D. Screws

20. Why is it recommended to use the EMT?

- A. It's easy to install.
- B. It's very expensive.
- C. It's made of plastic.
- D. It doesn't need tape.

21. What is the function of conduit fittings?

- A. To decorate the building more beautifully.
- B. To cover the environment of the house.
- C. To let the electrician works easily.
- D. To prevent from electrical shocks.

Questions 22 – 23 refer to the following information.

Situated in Pantai Indah Kapuk in North Jakarta, the Angke Kapuk natural tourism park covers an area of 99.82 hectares overlooking the Jakarta bay. With an entrance fee of Rp 25,000 (US\$1.87) per person for adults and Rp 10,000 for children, the place offers river cruising on a motorboat as well as walking and cycling around the forest through bamboo and wooden paths. A six-seat motorboat can be rented for Rp 350,000 per boat. A bigger size, which can accommodate up to eight people, is available for Rp 400,000. Fauna watching is one of the perks that visitors can expect to enjoy while cruising the mangrove forest. During our recent visit, several wild birds were standing at wooden poles scattered among the trees.

"If you arrive earlier in the morning, you can also see some lizards swimming in the river," said our boatman, Agus.

In addition to a bird watching area, which is best seen from a wooden bridge connecting one mangrove zone to another, there is also an avian nursery reachable by bike. When it is close to sunset, visitors can be found lingering at and around a 20-meter tower near the cottage area. Made entirely from wood, the accommodation options are perfect for those seeking to enjoy the lush trees and calm river overnight.

22. What can we do when visiting the 'Angke Kapuk' Natural Tourism Park?

- A. Driving along the park.
- B. Watching a folk of birds.
- C. Enjoying special culinary.
- D. Staying in luxurious hotel.

23. What would people think of touring the park?

- A. It is lack of beauty and passion
- B. It is a unique experience
- C. It is a boring exploration
- D. It is all about animals

Catatan Pak Anang:

“Soal “bocoran” ini merupakan soal prediksi dari MGMP Bahasa Inggris DKI Jakarta yang beberapa tahun terakhir ini sangat mirip dengan UN yang sebenarnya... Janganlah takut untuk tidak lulus Ujian Nasional, tapi berjuanglah secara jujur dengan kerja keras sendiri untuk mempelajari kisi-kisi UN 2016 dan beberapa contoh soal UN SMK 2016 yang pernah dibagikan di blog <http://pak-anang.blogspot.com> . Semoga berhasil dan sukses UN 2016!!! Amin!!!“

Semoga bermanfaat!
